PATTERNS + TEMPLATES

# Stars + a simple tree

Print at 100% or Actual Size. Check the scale bar below.

This line must measure 1 inch.

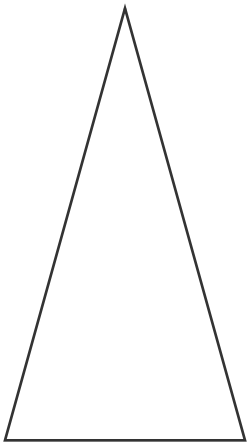

Star: 3 in wide

For project 12. Trace the outer outline.

Small star - about 1 in

Tree: 1 1/4 x 2 1/4 in

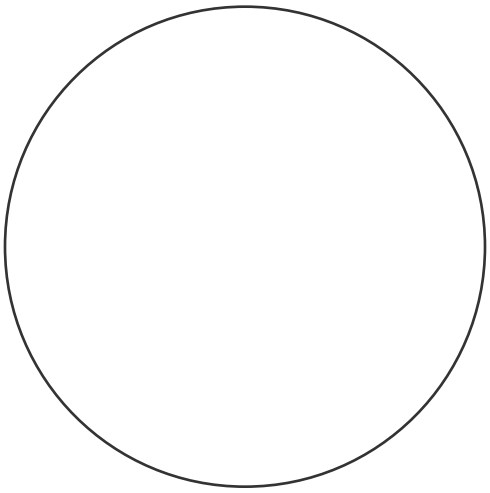

Trace three triangles for project 3. Trace the small star for projects 1, 5, 13, 14, and 17. Keep a spare set of patterns in an envelope.

# Circles for little details

Print at 100% or Actual Size. Check the scale bar below.

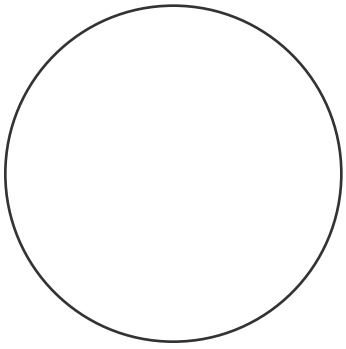

This line must measure 1 inch.

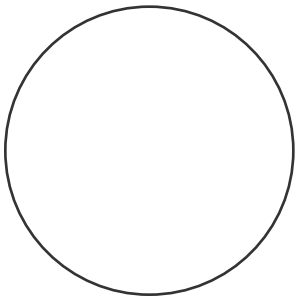

2 1/2 in

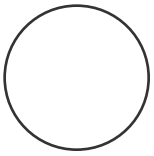

2 in

1 3/4 in

1 1/2 in

3/4 in

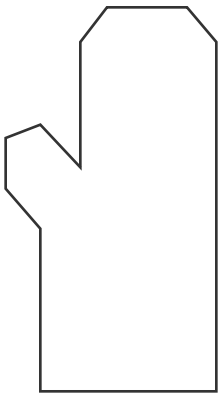

Use for ornaments, snowman shapes, wreath leaves, and angel heads. You can also trace a round household object of a similar size.

# Mittens + candy canes

Print at 100% or Actual Size. Check the scale bar below.

This line must measure 1 inch.

Mitten: 2 in tall

Candy cane: about 3 1/4 in tall

**MITTENS / PROJECT 8**

Trace one mitten, then flip the pattern to make its partner. Add a white cuff over the straight wrist edge.

**CANDY CANES / PROJECT 9**

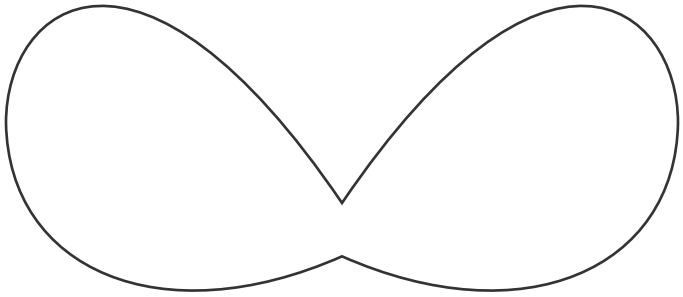

Trace twice onto white paper. Draw red stripes after cutting. Keep the striped canes on scrap paper while coloring.

PATTERNS + TEMPLATES

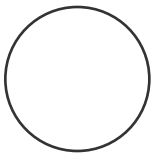

# Wings for a paper angel

Print at 100% or Actual Size. Check the scale bar below.

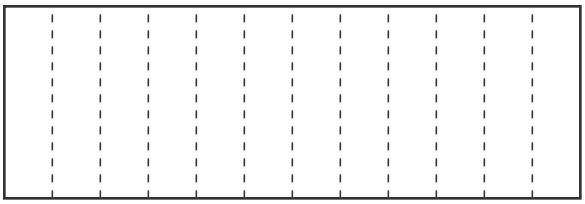

This line must measure 1 inch.

Wing pair: 3 1/2 in wide

Head: 3/4 in circle

Fold-spacing practice strip

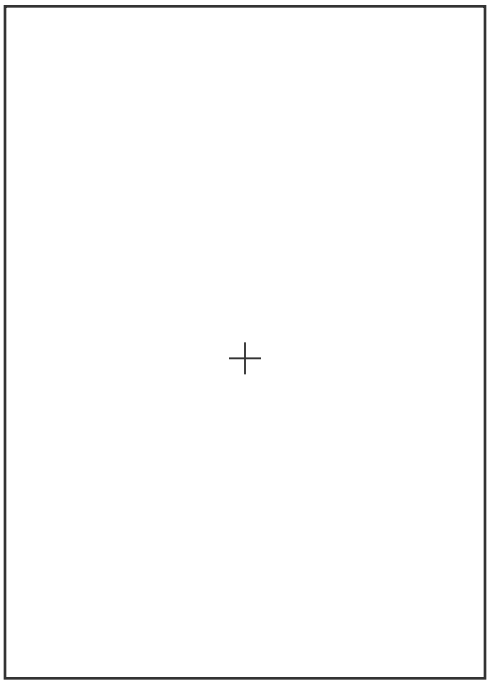

For the dress, cut lightweight paper to 3 x 4 in. Fold along the 4 in direction at 1/4 in intervals, alternating forward and back. The practice strip above shows the spacing, not the full dress size.

PATTERNS + TEMPLATES

# An opening with a view

Print at 100% or Actual Size. Check the scale bar below.

This line must measure 1 inch.

Window: 2 1/2 x 3 1/2 in

**FOR PROJECT 19**

Cut out this rectangle and trace it on the card front. Center it side to side with the top edge 1 1/4 in below the top of the card. The cross marks the center of the waste area, where you can make a small starter snip.

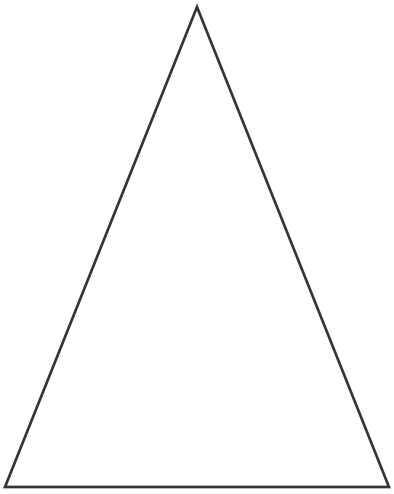

The ornament is a 2 in circle from template page 2. The inside paper panel measures 4 1/2 x 6 1/2 in. Check the view through the opening before you glue.

PATTERNS + TEMPLATES

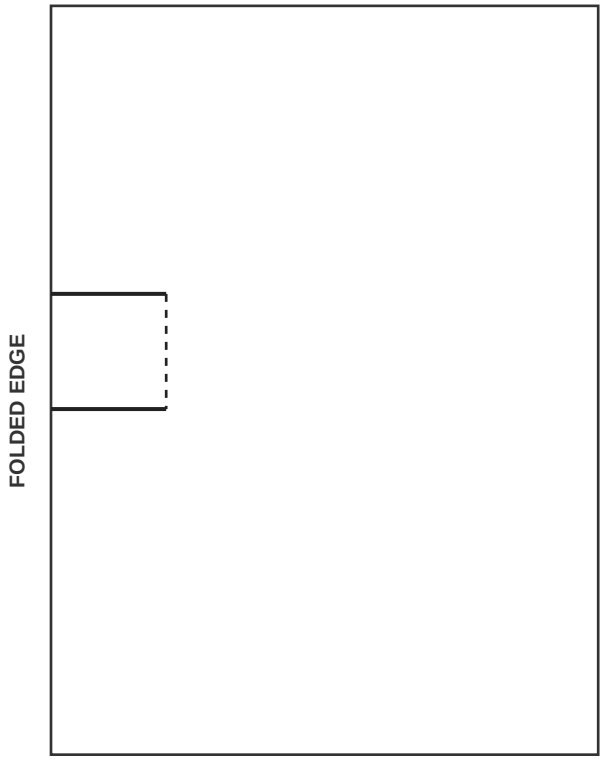

# The pop-up cutting guide

Print at 100% or Actual Size. Check the scale bar below.

This line must measure 1 inch.

Tree: 2 x 2 1/2 in

Insert diagram: 60% size

## INSERT MEASUREMENTS

Cut an insert 9 1/2 x 6 1/2 in. Fold to 4 3/4 x 6 1/2 in. On the folded edge, measure 2 1/2 and 3 1/2 in down from the top. Cut 1 in inward at each mark. Reverse-fold the 1 x 1 in section to form a tab.

Solid line = cut

Dashed line = fold

The tree above is actual size; the insert diagram is reduced to fit. Use the written measurements for the insert. Glue only the lower back of the tree to the vertical tab face.
